# How Tour Mate works

Planning Phase

Travel Phase

Trip Phase

Everything a person would need to do from the moment she plans her journey to the point where she sits in her mode of transportation.

Mode of Transit

Hotels

Destination City

Shopping

When anyone travels alone, they need something or the other to kill the travel time. We provide them the best options of entertainment and enjoyment **based on their current state of mind.**

After one reaches the destination city and if she is visiting that city for the first time, they would definitely want to know a lot of things about that place like lifestyle, food outlets, etc. We try to provide a comprehensive list of same.

The background image shows the Taj Mahal in Agra, India, during sunset. The white marble mausoleum is illuminated by the warm orange and yellow light of the setting sun, which is reflected in the calm water of the Yamuna River in the foreground. The sky is a clear, pale blue.

Planning  
Phase

Before your actual  
Journey begins

## Selecting / Exploring City

Before you finalize your trip, we give you options across the country. You can “virtually” explore the city through our app

## Accommodation

If your trip is longer than one day, you need to stay somewhere. We fetch you the best hotel deals from the city for you to choose from.

## Mode of Transit

You can look for and hence book Bus or Train tickets. Else you can go pick your own car and make the trip fully customized

## Shopping

You may need to buy new Shoes, bag or a pair of jeans. You can simply get the best prices at a single click.

# Check List

Because remembering everything required for your perfect trip is quite cumbersome.

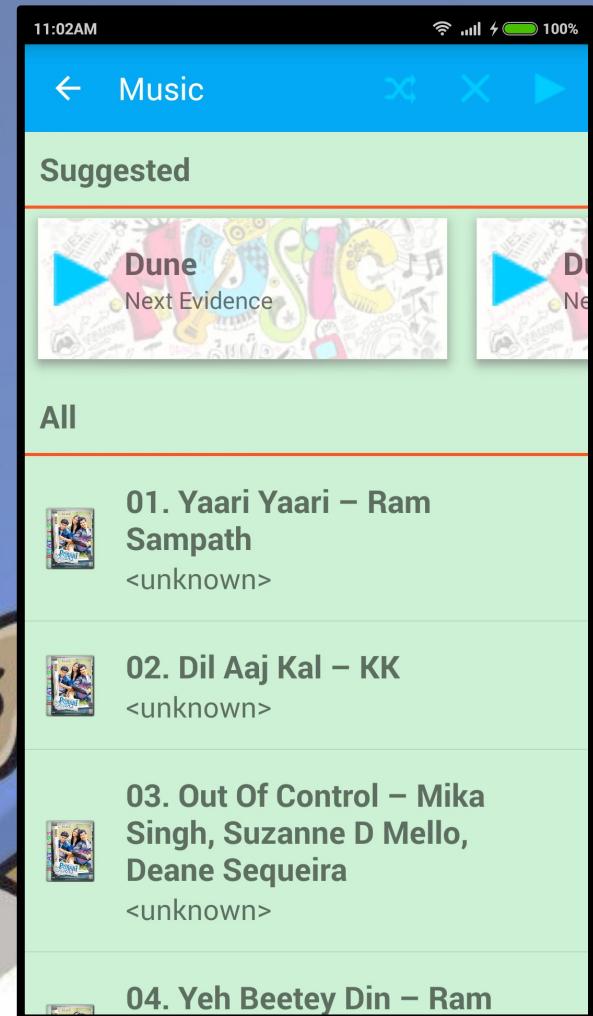

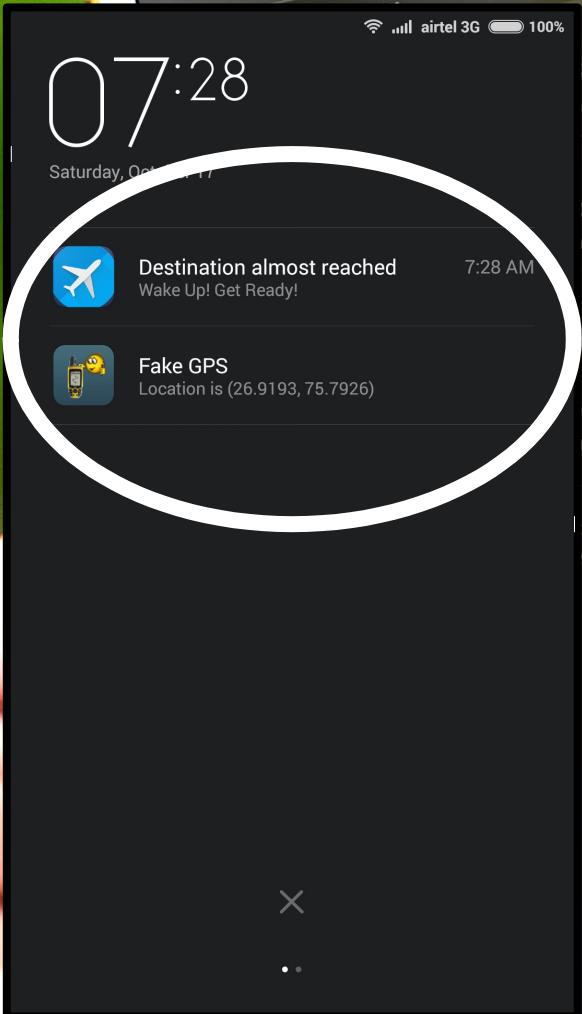

Travel  
Phase

During you're travelling  
to your destination

# User's Mood Detection

We try to find the current state of mind or the mood of our traveller on the basis of his activity and selections on the app and hence recommend him videos, books and songs accordingly.

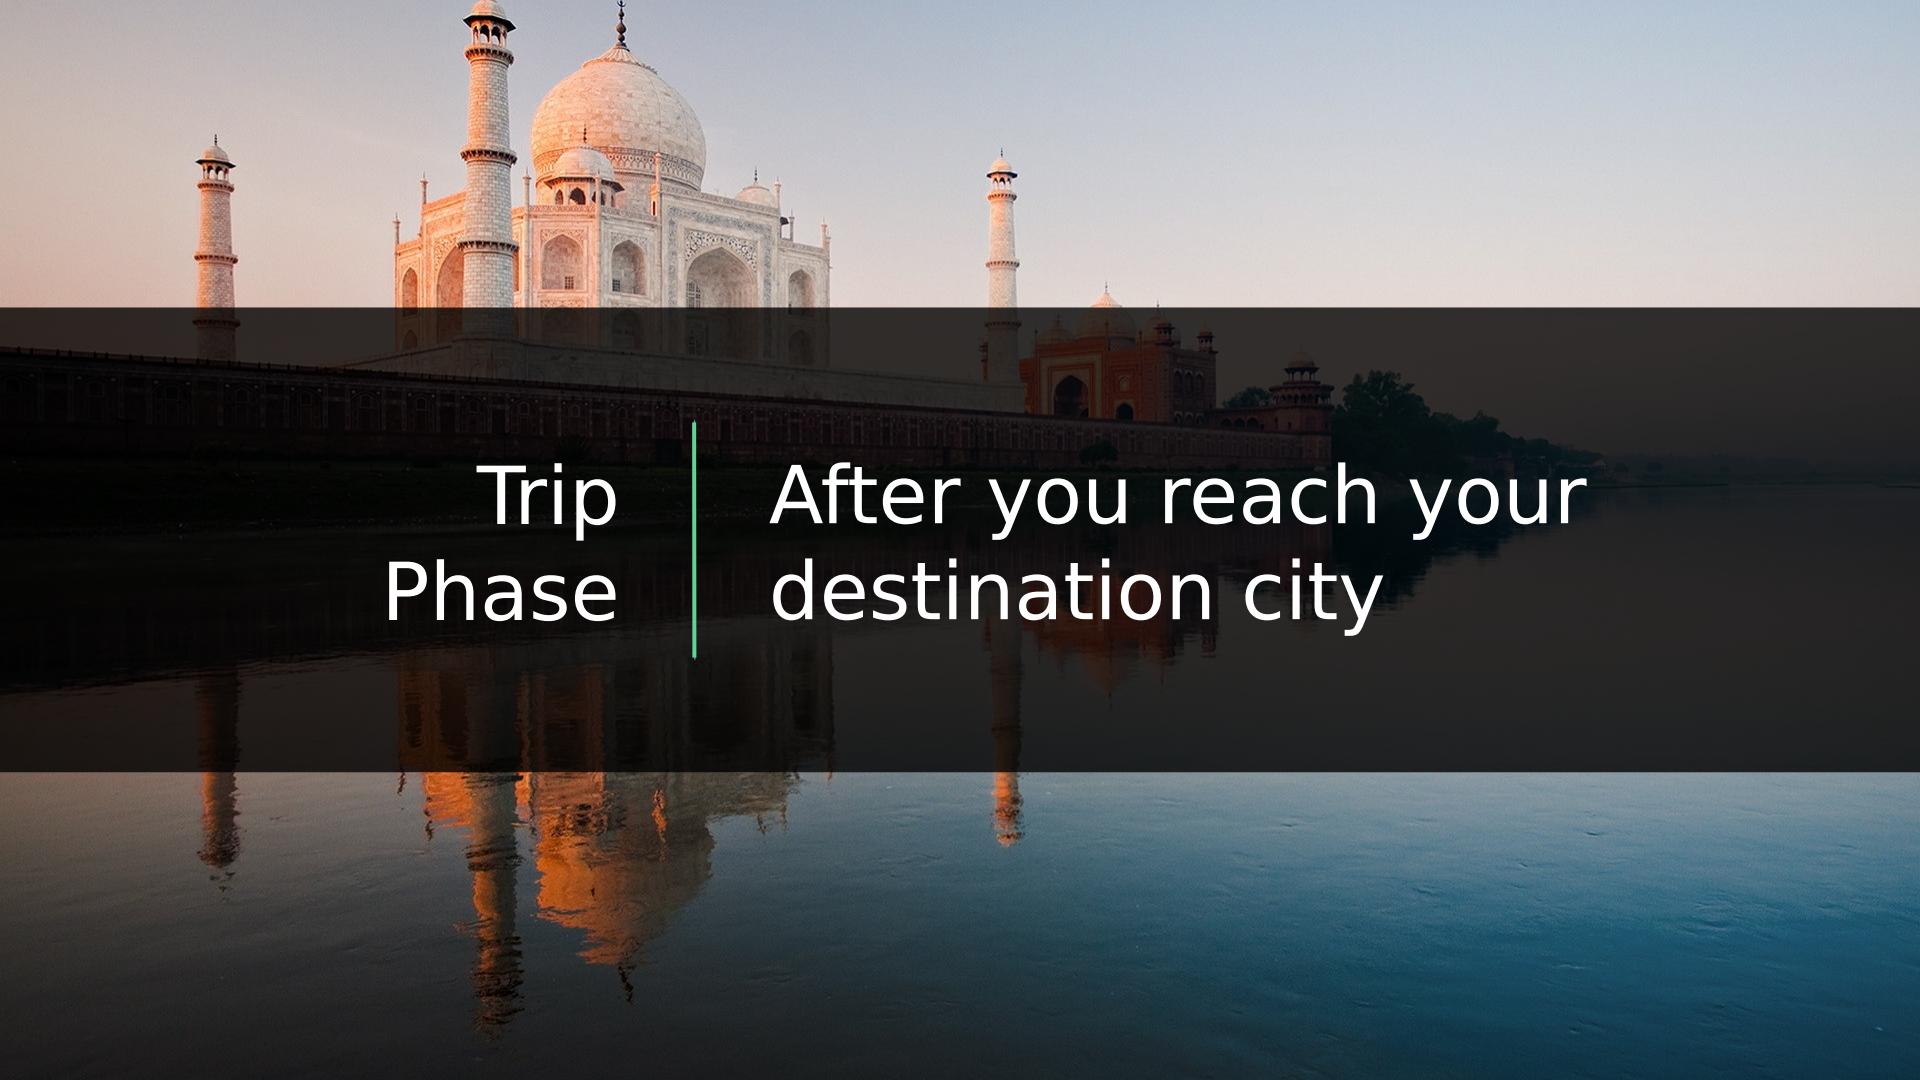

# Push Notification

**Travellers tend to doze off during their journey. And often either miss their destination stops**

(not often, but there's a possibility)

**or miss the important stations between their source and destination cities.**

**We keep them updated with push notification and auto-alarm options so that even this could be taken care of.**

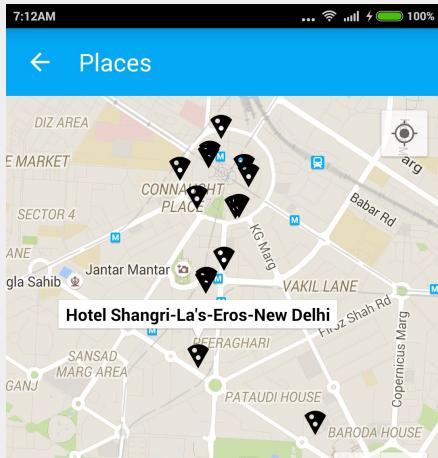

Trip  
Phase

A vertical green line is positioned between the two text blocks.

After you reach your  
destination city

# Real Time Location Data

Get the nearby locations on the go. So no more talking to strangers for directions  
Be it food outlets, monuments, hangout spots, ATMs or even petrol pump.  
We have pretty much everything for everyone

# Application Monitoring and Management

ACRA crash reporting tool(open source) is implemented within the application. It provides a detailed report of the crashes occurring with the application. Also Google analytics has been embedded with the app to track app usage.

Thank You | Happy Journey
